SUBMERSIBLE DRAINAGE PUMPS FOR HOT WATER OPERATION

- Safe to run dry
- 30 mm free passage
- Hot water up to 194 °F (90 °C)
- Controllable oil chamber
- SiC mechanical seal independent of sense of rotation
- Replaceable moisture sealed cable inlet

DESCRIPTION

The heavy duty centrifugal submersible drainage pumps US 73 and 103 HE/HES are suitable for dealing with very contaminated water and capable of handling solids up to 30 mm particle size without stones. These pumps can be used wherever wastewater up to 194°F (90°C) is involved, such as in laundries or automatic laundrettes, or in industrial dishwashers and washing machines or for the emergency overflow of heating systems.

This range of pumps is suitable for stationary use. For easy removal of the pumps from deep sumps we recommend the use of our guide rail systems which provide ease of maintenance and inspection. A controllable oil chamber and wear-resistant special mechanical seal ensure a long service life. The integrated winding thermostats protect the motor from overload.

In conjunction with the drain master Hebefix 100 H, it provides a ready to install solution for conveying wastewater up to 176°F (80°C).

PERFORMANCE

Type	Delivery head H [m]	1	2	3	4	5	6	7	8	9	10	12
US 73 HE/HES	Flow rate Q [m³/h]	19	17	15	12	10	8	6	4	2		
US 103 HE/HES		28	26	23	21	19	17	15	12	10	8	2

We reserve the right to change specifications without notice. Pump performance is subject to ISO 9906 tolerances

The minimum flow velocity in the pressure piping must be 0.7 m/s according to EN 12056. This data is represented in the performance curve as a limit of application.

SUBMERSIBLE DRAINAGE PUMPS FOR HOT WATER OPERATION

SCOPE OF SUPPLY

Pump acc. to EN 12050 ready for connection with cable and safety plug

MECHANICAL DATA

Pump	Vertical single-stage	Run dry protection	Yes
Free passage	30 mm	Shaft	Stainless steel
Bearing	Ball bearings, grease-lubricated	Impeller	Vortex impeller, GFK
Seal on motor side	Duplex rotary shaft seals	Motor housing	Stainless steel
Oil chamber	Yes	Pump housing	Grey cast iron
Seal on medium side	SiC mechanical seal	Submersible	Yes
		Pressure outlet	IG 1 1/2"

ELECTRICAL DATA

Voltage	1/N/PE~230 V	Insulation class	F
Power line	10m H07RN-F	Winding thermostat	Yes
Wires	3G1,0	Motor protection	Integrated
Type of enclosure	IP 68	Plug	Safety

Single unit US-H with GR 40: sump area min. 40x65 cm
 Single unit US-H without GR: sump area min. 40x40 cm
 Duplex unit US-H with GR 40: sump area min. 65x80 cm
 Duplex unit US-H without GR: sump area min. 40x80 cm

In case of installation beneath the backpressure level the pressure tube must be taken in a

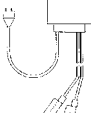

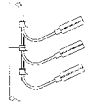

loop over the local backup level acc. to EN 12056. Besides, it must be secured with an EN 12050-4-proofed swing-type check valve. Additionally we recommend an alarm system. In accordance with EN 12056-4 section 5.1, it has a built-in automatic spare pump or a double attachment included, which ensures that sewage drainage is not interrupted.
